### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Numbering***

1. Claims 18 and 19 have been re-numbered as claims 17 and 18 as per rule 1.126.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 12, lines 4-5, the recitation of "the length of each chamber less than 100% of the mean height of a U.S. male" renders the claim indefinite. It is not readily ascertainable as to the mean height of a U.S. male. The mean height of a U.S. male would fluctuate from the early years of the U.S. to the present day. Applicant is suggested to define the length in definite terms such as feet.

As to claim 14, line 6, the recitation of "a mean height U.S. male" renders the claim indefinite. It is not readily ascertainable as to the mean height of a U.S. male. The mean height of a U.S. male would fluctuate from the early years of the U.S. to the present day. Applicant is suggested to define the length in definite terms such as feet.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3673

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Kruger et al #2002/0044833. Kruger et al, paragraph [0021], discloses a leaching chamber having a lengths between 2-10 feet and lengths of 4-8 feet being preferred. The nature of the shorter length chambers would allow for an increase in curve factor and to increase the number of joints for a given length of chamber string.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hansen '821 disclose a chamber 49 having a length of 4 feet. Burnes et al #2003/0219310 discloses chambers having typical lengths of 4-8 feet.
